About the Project

Tempe Streetcar will serve one of the highest transit ridership centers in the region. It will connect riders to neighborhoods, major business centers, and regional events and destinations. As the Valley’s first modern streetcar line, it will add to the comprehensive transit network in Tempe, which includes buses, circulators, light rail, bicycle and pedestrian amenities.

Streetcar vehicles are smaller than light rail vehicles and operate individually, not linked together like trains. Streetcar stops are similar to bus stops and occur more frequently than light rail stations.

The project includes:
- Off-wire operation through downtown on Mill Avenue and at gateway intersections
- Primarily shared roadway with vehicle traffic
- Landscaping and public art

PROJECT STATUS

- Construction punchlist items are ongoing.
- Vehicle delivery and testing has begun.
- Local business outreach and support continues.
- Continued installation of public art at stops.
- Continued coordination of vehicle and system testing.

PROJECT FACTS

- 3 MILES
- 14 Stops
- 2 Connections to Valley Metro Rail

NEXT STEPS

- Finalize and complete construction punchlist items.
- Begin pre-revenue operations
